

Welcome to the Next Level in Wireless Transaction Processing!

The CHARGE ANYwhere™ Interactive Credit Card Pager

CHARGE ANYwhere™ is a completely **self-contained unit** with patented design features perfect for the mobile business to process credit cards on-the-spot and requires no additional work by the merchant to get paid! Why limit yourself to pages that just contain phone numbers or simple, alpha text messages, when you can get that same basic information plus a whole lot more?

With Charge Anywhere™ and Interactive Paging Service, you can take advantage of full messaging capabilities including the ability to respond and even **process credit card and check guarantee transactions!!** This complete end-to-end solution **costs several hundred dollars less** than what other companies charge for just a credit card device and authorization capabilities.
